

## The Wonderful Cross

**D**                      **G**                      **D**  
When I survey the wondrous cross

**G**                      **D**                      **A**  
On which the Prince of Glory died

**D**                      **G**                      **D**  
My richest gain I count but loss

**G**                      **A**                      **D**  
And pour contempt on all my pride

**D**                                      **G**                      **D**  
See from His head, His hands, His feet

**G**                      **D**                      **A**  
Sorrow and love flow mingled down

**D**                                      **G**                      **D**  
Did e'er such love and sorrow meet

**G**                      **A**                      **D**  
Or thorns compose so rich a crown

**G**                      **D**                                      **G**                      **D**  
Oh the wonderful cross, Oh the wonderful cross

**G**                                      **D**                                      **A**  
Bids me come and die and find that I may truly live

**G**                      **D**                                      **G**                      **D**  
Oh the wonderful cross, Oh the wonderful cross

**G**                                      **D**                                      **A**  
All who gather here by grace draw near and bless Your name

**D**                                      **G**                      **D**  
Were the whole realm of nature mine

**G**                      **D**                      **A**  
That were an offering far too small

**D**                                      **G**                      **D**  
Love so amazing, so divine

**G**                      **A**                      **D**  
Demands my soul, my life, my all
